County board supports six towns' effort to leave NWTC

Town, county officials cite limited technical college services to northern towns

By WARREN BLUHM
Editor-in-chief

Six northern Oconto County towns hope a county board resolution of support will aid their appeal in the effort to detach from the Northeast Wisconsin Technical College District and join Nicolet Technical College.

"The service provided in the northern part of the county by NWTC is frankly terrible," Supervisor Don Bartels Jr. said before the county board voted April 22. "I can remember when they offered programming. You could take classes in various things; they had a person who actually arranged it. All that's gone now, but the price hasn't gone down. It's practically taxation without representation."

The Wisconsin Technical College System (WTCS) Board voted 11-1 on Dec. 17 to deny reorganization petitions from towns of Townsend and Lakewood; the towns of Riverview, Doty, Breed and Mountain were refused the right to be heard because their borders are not contiguous with the Nicolet district.

According to the minutes of the special meeting, the system board was told that the process included "a 45-day public comment period with notifications published in newspapers; letters sent to district presidents affected by the petitions; and although not required, the WTCS also provided notification letters to the Township of Townsend and the Township of Lakewood."

Virtual public hearings were also held Dec. 7 at 9 a.m. for Townsend and 1 p.m. for Lakewood, system administrators said.

WTCS said it received no comments from the general public during the 45-day window, and no members of the public appeared at the Dec. 7 hearing.

The Wisconsin Newspaper Association legal notices database at wisconsinpublicnotices.org does show that WTCS placed classified ads in the Green Bay Press-Gazette on Oct. 2 and Oct. 16 regarding the public comment period and on Nov. 20 regarding the public hearings. No notices appear to have been published in the Oconto County Times Herald or Oconto County Reporter.

NWTC President Jeffrey Rafn opposed the towns' petition, while Nicolet President Richard Nelson, who is retiring this summer, said his district

was neutral on the matter. Members of the state board expressed disappointment that town officials did not log into the teleconference when the matter was decided.

Rafn said he was wiling to meet with town officials to plan a year of programming and offered to have NWTC add refresher programs online to prevent travel.

During their April 22 meeting, county supervisors heard from Riverview Town Chair Ann Hogan, Doty Town Chair Andrew Stemp and Mountain Town Chair Skip Maletzke, who said the main concern is to improve the continuing education needs for the towns' six fire departments and two ambulance services.

"They have to maintain their continuing education and licenses, and it's very difficult since we've been attached to NWTC," Hogan said. "We have to make it easier."

To obtain or maintain certification, volunteer firefighters and EMTs have to travel to NWTC facilities in Oconto Falls or Green Bay, she said.

"That's 2 1/2 hours to Green Bay, a four-hour class — 6 1/2 hours — after an eight-hour (work) day. It's not just a one-time deal; it can be eight, nine weeks or more," Hogan said. "That is a long day. It's mentally draining, financially draining. It's gotta be $10 in gas alone."

NWTC also won't allow Nicolet instructors to come into northern Oconto County to teach the class, she added. Nicolet Technical College's main campus is in Rhinelander, but its Forest County academic centers are closer to northern Oconto County, which could shave an hour or more from the travel time.

Another consideration is the property tax mill rate for NWTC is $0.83 per $1,000 of equalized valuation, compared with Nicolet's $0.39.

"What we contribute to NWTC, our six towns, is $951,079. We get very little in return," Hogan said.

Supervisor Tracy Ondik, who also serves as chairman of the county EMS Council, said NWTC has rebuffed repeated efforts to address their concerns over the years.

"We have tried, and it has gone on deaf ears," said Ondik, who abstained from the vote because he is employed as director of the Gillett Area Ambulance Service.

The county board voted unanimously to support the six towns' appeal of the WTSB denial. The state board is scheduled to meet next on May 19 and may consider the matter at that time.

Decision in 1976 case may be appealed

By **WARREN BLUHM**
Editor-in-chief

Attorneys for the elderly Lakewood man accused in a 1976 double homicide in Marinette County have asked the Wisconsin Court of Appeals for permission to appeal a judge's ruling denying evidence of an alternate suspect.

Raymand L. Vannieuwenhoven, 84, has been incarcerated since he was arrested in March 2019 and charged with the shooting deaths of David Schuldes, 25, and Ellen Matheys, 24, at the McClintock Park campground in the Town of Silver Cliff in July 1976. Matheys had also been sexually assaulted.

The case went unsolved for more than 40 years until, investigators say, DNA found with Matheys' body was positively matched to Vannieuwenhoven in early 2019.

The trial, which is expected to take up to two weeks starting July 19, has been delayed both by COVID-19 concerns and several months when the defendant suffered a mental setback that left him temporarily not competent to assist in his own defense.

Marinette County Judge James A. Morrison in March denied a defense motion to allow testimony about one of two earlier suspects in the case. The man had a past history of physical and sexual abuse, a history of mental illness and aggravated violence, and worked for the Marinette County Parks Department at the time of the murders, the defense had argued.

The man was considered a suspect as recently as the 1990s, but authorities were unable to tie him conclusively to the murders, and Morrison ruled that the defense motion did not meet the legal requirements for introducing evidence of an alternative suspect.

In its petition to the Court of Appeals, defense attorneys ask for "leave to pursue a permissive appeal" challenging the judge's ruling and asking the appellate court to order Morrison to allow the evidence into testimony.

A decision on a second alternate suspect is pending.

Behnke takes oath as new Assemblyman

Present and former lawmakers among attendees at Oconto High School

By WARREN BLUHM
Editor-in-chief

State Rep. Elijah Behnke is congratulated by Oconto County Circuit Court Judge Michael T. Judge after taking the oath of office with his wife, Ashley, and daughter, Ayla, looking on.
WARREN BLUHM | NEW MEDIA

When Elijah Behnke of rural Oconto took the oath of office April 28, he attained something not seen in nearly 50 years.

"What a great day for Oconto County: We have a representative in the state Assembly," Judge Michael T. Judge said after he was introduced to administer the oath to Behnke, who won the April 6 special election to succeed former Rep. John Nygren.

The last member of the Assembly who lived in Oconto County was the late Milton McDougal, of Oconto Falls, who served from 1965-72. The county is now split between the 36th and 89th districts, whose representatives have been from adjoining counties over the years. The county's other current rep, Jeffrey Mursau, was born in Oconto Falls but lives in Crivitz in Marinette County.

Behnke was sworn in at his alma mater, Oconto High School, where he was a member of the Class of 2001.

Sheriff Todd Skarban noted that the motto of the Oconto Unified School District is "Leaders and Learners, Today and Tomorrow."

"I think that's what we're looking at today," Skarban said.

The sheriff said he and Behnke have a lot of values in common, adding to laughter, "Of course, my education was better because I went to Suring High School."

Skarban pointed out that all three branches of government were represented at the ceremony — executive, legislative and judicial — "and when they work together, that's when you get things done." He praised Behnke for his "willingness to step in and do it the right way."

U.S. Rep. Mike Gallagher said Behnke is an example of the citizen legislator, "the heart of the founding of America," people who set aside their everyday occupations for a time to serve the public before returning.

Behnke, whose daughter, Ayla, led the audience in the Pledge of Allegiance, said he depends on principles of hard work, honesty and faith, and he credited family and friends for his reaching this stage in his life.

"My parents raised me right," Behnke said. "I have a loving wife who supports me, and friends who were willing to go out and say, 'Go vote for Elijah.' I couldn't have done this myself."

He briefly touched on themes from his campaign, including clean water, reopening schools and supporting small businesses.

Also in attendance were state Sen. Eric Wimberger, R-Green Bay, whose district includes the 89th, and former state Reps. John Gard and Cate Zueske.

"Both John and I were first sworn in at our high schools," said Zueske, a Shawano graduate who also served a term as state treasurer. "It's such a special time."

The special election was called after Nygren unexpectedly resigned Dec. 1, one month after winning an eighth two-year term, to become the new executive director of the Wisconsin Association of Health Plans. Behnke, who won a five-way Republican primary, went on to defeat Democrat Karl Jaeger for the right to fill the term through the end of 2022.

Local support comes in for Oneida Nation

Area tribes, Cowles offer sympathy after shooting at Oneida casino

By NEW MEDIA STAFF

Local reaction to a May 1 shooting on the Oneida reservation has been swift and supportive for the tribe.

According to the Associated Press, a 62-year-old man walked into the Duck Creek Kitchen and Bar at the Oneida Casino and killed two men at a wait station at close range with a 9 mm handgun, then went outside and shot another restaurant employee, critically wounding him, before being killed by Green Bay police officers moments later. The man was identified by authorities as Bruce Pofahl.

The AP reported that Pofahl had been an employee at the restaurant but had been fired for harassment and other issues. Pofahl's supervisor took out a restraining order against him in March, according to online court records.

Gunnar Peters, Menominee tribal chairman, issued a statement the day after the shooting extending condolences on behalf of the Menominee Tribal Legislature. Peters said that flags at all tribal buildings would be lowered to half-staff to honor the shooting victims.

Adrian Miller, president of Menominee Tribal Enterprises, released a statement on May 4 joining the legislature in offering support to the Oneida Nation.

"Collectively we put tobacco down and offered humble prayers for the victims, their families and everyone affected by this horrific event," Miller wrote. "We asked the Creator to help all though these trying and uncertain times, please help provide us with a path to heal."

The Stockbridge-Munsee Tribe posted on its Facebook page that it was extending "heartfelt prayers" to the Oneida Nation.

State Sen. Robert Cowles said in a statement from his office that the Oneida Nation suffered a traumatic event and that the tribe was in his thoughts and prayers. He said he was grateful that the police were able to stop the suspect before anyone else was hurt or killed.

"I want to encourage anyone who is emotionally impacted by last night's events to please reach out and talk to someone if you're having trouble coping," Cowles said. "Whether it's a friend, family member, or helpline, sometimes we can't process traumatic events alone, and we shouldn't be afraid to ask for help."

Certain behaviors could cause early death

Each day, medical experts and health care researchers bombard us with data about the benefits and harms of various lifestyle behaviors. How do we weigh the relative importance of these? We all know that smoking is harmful to our health and that eating fruits and vegetables is good for us, but how can we quantify the "badness" and "goodness" of our everyday behaviors?

As humans, we operate from a system of rewards and risks. The more clearly we understand the dangers and rewards of specific behaviors, the easier it is for us to adapt our habits. Based on this simple truth, a Cambridge University researcher has developed a guide that helps people compare different lifestyle choices. He created the concept of a 30-minute unit called a "microlife" which can be added or subtracted from the length of our lives.

BRIAN GRIEVES

Here is how it works: The average life expectancy for men is currently about 79 years. For a 22-year-old man, that's 57 more years, or 20,800 days, or 500,000 hours, or 1 million half-hours. So, a young man of 22 typically has 1,000,000 half-hour "microlives" ahead of him (the same as a 26-year-old woman).

Based on recent scientific health care studies of long-term habits, the loss of a microlife can be associated, for example, with smoking two cigarettes, taking two extra alcoholic drinks, eating a portion of red meat, being overweight or watching two hours of television a day. Likewise, the addition of a microlife can be associated with taking just one alcoholic drink a day (one microlife), 20 minutes of moderate exercise daily (two microlives) and a diet including fresh fruit and vegetables daily (four microlives).

Armed with this simple and quantifiable system, we can make fair comparisons of the harms and benefits of our daily behaviors. Microlives encourage us to look at the lifestyle actions that might accelerate us towards an early death. For example, someone who smokes 20 cigarettes a day is using up around 10 microlives or, loosely interpreted, is rushing toward his or her death at a pace of 29 hours a day, rather than 24.

BY THE NUMBERS

The following chart sets forth the number of microlives gained (+) or lost (-) per day for the average 35-year-old male and female, based on estimated life expectancy effects of long-term lifestyle risk factors:

Risk factor and daily exposure	M	F
Smoking		
Smoking 15-24 cigarettes	-10	-9
Alcohol		
First drink (10 g alcohol)	+1	+1
Each subsequent drink (up to six)	-1/2	-1/2
Obesity		
Per 5 units above BMI 22.5	-3	-3
Per 5 kg above optimum weight	-1	-1
Sedentary behavior		
2 hours watching television	-1	-1
Diet		
Red meat, 1 portion (85 g, 3 oz)	-1	-1
Fruit and vegetable intake, 5 servings	+4	+4
Coffee, 2-3 cups	+1	+1
Physical activity		
First 20 minutes of moderate exercise	+2	+2
Additional 40 minutes of moderate exercise	+1	+1/2

Sleeper named new leader for Shawano School Board

By LEE PULASKI
City Editor

Michael Sleeper was elected president of the Shawano School Board on May 3, even as one school board member questioned whether the voting took place at the meeting or outside the meeting.

Sleeper, who has been the board's vice president, received six votes to be named president, while board member Chuck Dallas received three. The vote was for officers was done by secret ballot, so there is no indication who voted for each candidate. Sleeper is taking over for Tyler Schmidt, who did not run for reelection.

After the vote, Sleeper expressed his appreciation to the board for putting him in the leadership position.

"I look forward to working with each and every one of you," Sleeper said.

Board member Mart Grams also spoke after the vote, questioning whether this was an action item and suggesting "pre-voting" might have taken place.

"Somebody was pre-voting before we got here," Grams said. "Call it what you may, but I object to the vote."

Grams did not elaborate further, and Sleeper opted to move on to the next election, which was for vice president. Mike Musolff was unanimously elected after no other nominations were offered for the post.

Alysia Pillsbury was re-elected the clerk for the board, also by unanimous approval.

Dallas, who lost the presidential race, was re-elected as the board's treasurer, getting six votes and defeating Grams, who received three.

The board also welcomed new board members Jamie Beyer and James Davel, who won seats in the last election.

Steve Lemhouse tends bar on the last dinner service day at the Spinning Wheel Inn before retirement on April 29. Lemhouse said that some of his favorite memories over the 51 years that he worked here have been meeting and talking to customers every day.

Spinning Wheel hosts last dinner service

Dozens of customers flock to restaurant for one last dinner and drink with owners

Steve and Lisa Lemhouse hosted their final dinner service as owners of the Spinning Wheel Inn on April 29.

"It is a little bittersweet, but it is time," said Steve Lemhouse, as he started his last dinner service.

The Spinning Wheel Inn was brimming with Shawano County residents as soon as it opened at 5 p.m. April 29.

Due to his retirement, Steve Lemhouse — who has worked at the Spinning Wheel Inn for the last 51 years — said that the last couple of weeks have been very busy. Lemhouse started as a dishwasher in 1970. In 1972, Lemhouse's family bought the restaurant, which he took over in 1994.

"It has been totally crazy busy," said Lemhouse. "It is like three times what we usually do."

Lemhouse estimated that, even on a slow day, 100-150 people have been coming in for dinner and drinks. He said that a crew similar to one that would be working on New Year's has been needed.

According to Lemhouse, employees at the Spinning Wheel Inn have been seeing customers come in for food and drinks whom they have not seen in years.

"We had a lady that came in, who drove up from Chicago, because she heard about the retirement," he said. "People have been coming out for their last meal and to say goodbye."

Lemhouse said that customers have been coming in to get food and drinks as well as congratulate him on retirement.

"We even had people in the dining room that stood up and gave us a standing ovation," said Lemhouse. "That was pretty neat."

Customers who came in for one more steak dinner shared their experiences and memories of coming into the Spinning Wheel Inn.

"I have been coming here since I was a kid," said Shawano resident Kirstin Heling. "The Spinning Wheel Inn always has great food, great service and great people."

Lemhouse said that meeting customers from the Shawano County community has meant everything to him.

"Customers have kept me here for as long as it is," said Lemhouse. "I have met so many new friends over the years."

STORY AND PHOTOS BY LUKE REIMER • REPORTER

The Spinning Wheel Inn has been known for its steak dinners and old fashioneds by Shawano County residents. Customers came in for one last old fashioned at the Spinning Wheel on April 29 before the Lemhouses retire.

With the restaurant standing for more than 100 years, it became an icon in the city of Shawano.

"I moved here in 1984, and this was the place to go," said Shawano resident Jimbo Harman. "This place has had the best food and the best bartenders."

As more customers flooded the bar for one last old fashioned, longtime bartender Pat Staniforth looked back on his time working with Steve and Lisa Lemhouse.

"Working with Steve and Lisa has been fabulous," said Staniforth. "They are the best people that I have worked for."

Though Steve Lemhouse has worked at the restaurant for multiple decades, he said that one memory stands above the rest.

"I basically got together with my wife from working in here," said Lemhouse. "Pat, our other bartender, broke his ankle one summer, and she filled in for him. The rest is history."

One customer said that the Spinning Wheel Inn is an inviting place to go, due to the employees.

"We come here to see the friendly faces," said Shawano resident Helen Warren. "It is amazing to see how many people come here."

Lemhouse said that, when closing time came every day during his tenure of running the restaurant, he would tell the employees in the back to pull the pin.

"One of our cooks put on Facebook that she always looked forward to hearing me say that," said Lemhouse. "Now she is not looking forward to hearing that because it will be for the last time."

"Customers have kept me here for as long as it is. I have met so many new friends over the years."
STEVE LEMHOUSE

Lemhouse said that as he retires, he will miss the customers the most.

"You don't know if you are going to see them again," said Lemhouse.

With the new owners taking over the business on May 1, customers have been giving the Lemhouses their best wishes.

"They have telling me that they are going miss all of the food and all of the camaraderie," said Steve Lemhouse. "We have so many of our regular customers that sit on their chair on a certain night — they said they were going to miss our chicken or our soup."

Lisa Lemhouse thanked the Shawano County community for their continued support of the Spinning Wheel Inn.

"Thank you to everyone," said Lisa Lemhouse. "So many of our customers have become our dearest friends, and we are going to miss them."

lreimer@newmedia-wi.com

Steve Lemhouse mentioned that his favorite memory was meeting wife Lisa while the two worked together at the Spinning Wheel. The Lemhouses have been married for 17 years and, on April 29, they hosted their last dinner service at the Spinning Wheel Inn.

Roses were handed out at the Spinning Wheel Inn on April 29 for Steve and Lisa Lemhouse's last night running the restaurant.

Arbor Day celebrated at Smalley Park

Residential and commercial awards given out by city

By LUKE REIMER
Reporter

The city of Shawano, its municipal utilities, a couple and a business owner all have new lawn ornaments to display in recognition of their commitment to trees.

Shawano's annual Arbor Day celebration took place at Smalley Park on April 28, presented by members of the Shawano Tree Advisory Committee and city officials.

Receiving the Nature's Friend Awards were Don and Jackie Fairbairn in the residential category and Ellen Ramlet, who manages River Ridge Condominium Group, in the commercial category.

City officials were awarded their 27th designation as a Tree City USA. According to the Arbor Day Foundation's website, in order to be recognized as a Tree City USA, the city must meet the requirements of having a tree board or department, implementing a tree care ordinance, having a community forestry program with an annual budget of at least $2 per capita, and observe Arbor Day.

The Public Works Department was also given a $2,000 check from Shawano Municipal Utilities. Shawano was also recognized for 18 years as part of Tree Line USA, which promotes best practices in public and private utility arboriculture, demonstrating how trees and utilities can co-exist for the benefit of communities and citizens.

An autumn blaze maple tree will be planted at the River Ridge Condominium Complex in Ramlet's honor.

"This award is a recognition for the people who volunteer their time to keep everything looking good," Ramlet said. "We will be proud to display this award."

Ramlet said that even though the community has lost some trees recently, this award promotes keeping the old trees and taking care of them.

Another autumn blaze maple tree will be planted in honor of the Fairbairns at Smalley Park.

"We bought our home 17 years ago," Don Fairbairn said. "We are just trying to be good stewards, leaving the property looking better than how we found it."

Fairbairn added how important trees are to the Shawano community.

"Trees are essential to life," he said. "Shawano does a great job with its parks — I think, the more trees, the better."

Shawano city forester Mike Kroenke said having trees in the community adds diversity to life and improves the quality of life.

"There are so many attributes to having trees," Kroenke said. "The city of Shawano has older trees that add beauty and aesthetics, are good for wildlife, good for storm water runoff retention, they add cooling in warm weather and they serve as a wind breaker — they add so many attributes."

Once a year, Nature's Friends Awards are awarded to one resident in the Shawano community, as well as one commercial business in the Shawano community. Anyone can be nominated and apply for the Nature's Friend Award through the city of Shawano and the tree advisory committee, Kroenke said.

"The condominium group really improved their properties through planting trees and landscape plants — they are very nature conservative," said Kroenke. "For the residential award, if you look at their (Don and Jackie Fairbairn) property, it's beautiful with trees, landscape and flowers — they are a good example for community members to follow."

Also at the ceremony, Shawano Mayor Bruce Milavitz proclaimed April 30 to be Arbor Day in the city.

"I urge everyone, who are able to do so, to observe this day by planting trees and by participating in one or more programs that our sponsors may provide," Milavitz said.

Students get hands-on experience with chicks

Sacred Heart kindergarten classroom kept watch over eggs stored in incubator

By LEE PULASKI
City Editor

For students living on a farm, seeing newborn chicks hatch from their eggs is just another day.

For the kindergarten students at Sacred Heart Catholic School, many of whom have not grown up on farms, seeing the birth of the chicks for the first time was amazing — and educational at the same time.

Teacher Sally Slezewski has been bringing in chicken eggs to hatch from an incubator for the last 25 years, and most of the time, there are a couple dozen chicks peeping and drawing the attention and admiration of the young children. This year's batch of eggs, however, did not fare as well, as only two chicks hatched out of about 36 that have been in the classroom for weeks.

It didn't faze the students too much, though, as they were just as happy fawning over two chicks as a whole flock.

Sacred Heart Catholic School kindergarten students Alex Thorson, left, and Taylen Milavitz, second from left, hold the new chicks that hatched last week in their classroom while Carter Kleist, second from right, and Ashton Springborn wait their turn. The students have been learning about chickens' life cycles in the past month, with the expected climax being the hatching of the chicks.
LEE PULASKI | NEW MEDIA

"They love it," Slezewski said. "It's great."

She noted it was more fun for her students to learn about the animals and their life cycle through this hands-on approach.

"I think that it's an experience that a lot of kids don't get anymore because a lot of children don't live on farms," Slezewski said. "I think it's good for them to be able to handle them and see the life experience."

The students also got to see the chicks in their formative stages prior to hatching with the help of a candle and a box, according to Slezewski.

"In the 21 days (prior to hatching), we candled them with the box, which is in a very dark room," she said. "Our windows are too bright, so we put them in a dark room upstairs. We got to see the life cycle in the 21 days."

The students made sure to keep on schedule, letting Slezewski and her aide know when the eggs needed to be flipped or checked.

"It's kind of like watering flowers," Slezewski said. "You've got to take care of them. Every day, we had to flip them, and every day, we had to spray them so that the shells would get thin, and then the shells that got thin, the chickens would come out."

This year, the eggs that hatched did so during the night, so the students did not get to see the actual moment when the chicks burst through the eggs.

"I've had years when the kids have actually seen them come out," Slezewski said. "It pushes out using its back leg."

As for why only two chicks hatched out of the whole bunch, Slezewski is still trying to ascertain the reason.

"I don't know if the thermometer got turned up too high for a couple of days, or if there's a chance some moisture affected it," she said. "I've had as many as 25 out of 36 (eggs), and this year I have two. But we're happy we have two."

Another teacher at the school offered to take the chicks back to her farm to raise as soon as the learning unit is over, according to Slezewski.

Wisconsin, Utah football teams schedule matchups for 2028, 2033 seasons

By THE ASSOCIATED PRESS

Wisconsin and Utah have announced a home-and-home series that includes matchups in 2028 and 2033.

The two teams are scheduled to meet at Wisconsin on Sept. 16, 2028. They play at Utah on Sept. 10, 2033. Their 2033 meeting will mark the first time Wisconsin has faced Utah in Salt Lake City.

The two teams have met three times before. They've split two games in Madison, with Wisconsin winning 7-0 in 1961 and Utah prevailing 31-28 in 1987. Ron Dayne ran for 246 yards to help Wisconsin beat Utah 38-10 in the 1996 Copper Bowl at Tucson, Arizona.

Amid Aaron Rodgers drama, Packers boost depth at positions of need

By STEVE MEGARGEE
The Associated Press

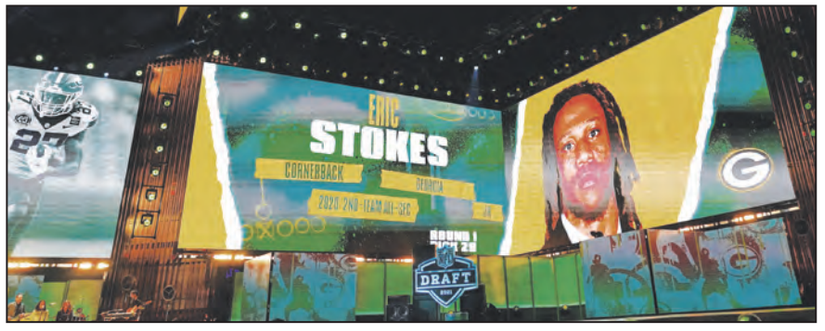

The Green Bay Packers believe they found ideal candidates to fill their biggest positional needs and upgraded a star-studded roster as they attempt to make a Super Bowl run.

But that won't be a realistic short-term goal if star quarterback and reigning MVP Aaron Rodgers is playing elsewhere.

"I can't even take my brain to that spot right now," Packers coach Matt LaFleur said May 1. "I just want to do everything in my power to ensure that doesn't happen."

Rodgers' reported desire to leave the Packers overshadowed any draft moves the team made over the past three days, even as team officials maintained confidence they'd have him back this fall.

In a column posted on the team's website, Packers CEO Mark Murphy called the Rodgers situation "an issue that we have been working on for several months." Murphy acknowledged that he, LaFleur and general manager Brian Gutekunst all have visited Rodgers during the offseason.

Images of Georgia cornerback Eric Stokes are displayed on stage after he was chosen by the Green Bay Packers with the 29th pick in the 2021 NFL Draft on April 29 in Cleveland.

TONY DEJAK | THE ASSOCIATED PRESS

"I think obviously some things can become complicated, and we're working through it the best we can," Gutekunst said. "We've been working through it for a while. Again, we're very optimistic that we can get through this for what's best for the Green Bay Packers, which is Aaron suiting up for us this fall."

The Packers finished up their draft by taking Mississippi offensive lineman Royce Newman in the fourth round, Florida defensive tackle T.J. Slaton and Appalachian State cornerback Shemar Jean-Charles in the fifth, Wisconsin offensive lineman Cole Van Lanen and Boston College linebacker Isaiah McDuffie in the sixth and Mississippi State running back Kylin Hill in the seventh.

That followed the selections of Georgia cornerback Eric Stokes in the first round, Ohio State center Josh Myers in the second round and Clemson receiver Amari Rodgers in the third round.

Staying home

Van Lanen gets to live out a childhood dream after growing up about 10 to 15 minutes from Lambeau Field. The graduate of Green Bay's Bay Port High School didn't initially realize what was happening when the Packers called to welcome him to the organization.

"This one came up as 'Spam Likely' on my phone," Van Lanen said. "I saw it was a Green Bay number, and I answered it. I just kind of wasn't even expecting it to be Gutekunst and Matt LaFleur. I just couldn't believe it. They said, 'How would you like to be a Packer?' And I was just absolutely stoked."

AUTO RACING

Mullen captures 3rd straight feature win

Bob Bennett honored during show

By DAVE BUSS
Special to NEW Media

Nick Anvelink earned a feature win in the Late Model class May 1 at Shawano Speedway.
TURN 2 PHOTOS AND DESIGN

The Shawano Speedway celebrated its Night of Champions on May 1, honoring the 2020 championship class.

Webster's Dictionary defines a champion as "someone who fights or speaks publicly in support of a person, belief, cause." Before the races, another champion's life was honored as Bobby Bennett was remembered. Although Bennett never won a track championship at Shawano, it was only appropriate to honor his life on the Night of Champions.

The IMCA Modifieds took to the track to open the features with Mike Mullen trying to extend his season opening win streak to three. Kevin Feck looked to be the man to end the streak early on, as he led the opening five laps of the race.

Further back in the pack, Andy Karl, Marcus Yarie, along with Jerry and Konnor Wilinski were waging a spirited battle with three-wide racing and competing slide jobs.

Meanwhile, Mullen was dicing his way forward and with a power move grabbed second on lap six. Riding his momentum, Mullen took his spot at the lead on lap eight.

Mullen continued his early season dominance with his third win in three weeks. Feck finished second, with Yarie taking third and Konnor besting his dad Jerry for fourth.

The racing in the IMCA Stock Car division is almost worth the price of admission by itself each and every night. Saturday was no different, proving you can race four-wide on the back stretch, three wide in the corners and just about anywhere on the track. The drivers in the division put on a show.

Kevin Hebbe grabbed the lead on lap seven, wrestling the spot from Shawn Wagner. Hebbe dominated the second half of the race to pick up his first feature win.

While that would normally be the end of the recap, not on this night. Behind Hebbe, Trent Nolan, Chummy Arneson, Jeremy Christians and Travis Van Straten showed why this class is too tough to tame. When the dust settled, Arneson grabbed second, Nolan third and Van Straten fourth after having to start 16th coming from the B-Main.

Last year's Late Model champion Troy Springborn led the field to the line for their feature event. Springborn, who feels his car hasn't been running the best early in the season, looked to make a break from the pack. Nick Anvelink had a different idea as he went from fifth to second on lap one and began his chase of Springborn.

Lap four was where Anvelink took the lead away and set sail. Late in the race, it looked like lap traffic would threaten Anvelink's lead, but he rocketed between the two cars and went on to victory. Springborn held off a late charge by Mullen for second with Ron Berna taking fourth.

The IMCA Sport Mods have been putting on great shows each week themselves; unfortunately this week, the theme of the night would be the yellow flag.

Zachary Raab was up to every restart to lead the event. Behind Raab, Tyler Sobiescyk, Teagan Wudstrack and Jeffery Teske were battling it out. After the sixth caution slowed the pack on lap 10, the event would be determined by a green, white, checkered finish.

Raab looked to maintain that top spot, and if the speedway would have been 5 feet shorter, he would have had the win. Teske rode the high side momentum to sneak past Raab at the line for the win. Raab settled for second, with Sobiescyk third and Wudstrack fourth.

The Mighty 4's saw Tony Everard taking the lead on lap five, getting past the car of Justin Finlan. Tanner Westphal grabbed the runner-up spot on lap eight and looked to add to his Night of Champions night with a feature win.

Meanwhile, Jason Stueck worked the high side of track to move forward lap after lap.

With two laps to go, Stueck grabbed the top spot and captured the win. Everard was second, with Westphal and Brad Wedde in the top four.

The last time the Panthers took the field in 2019, Ash landed on the North Eastern Conference honorable mention team. That season, tied for the team lead in hits with 31, she also tallied a .414 on-base percentage to go along with a .352 batting average, while driving in 15 runs and scoring 17 times.

Ash got her spring season off to a solid start during a busy first week of action for Oconto Falls last week.

She drew a walk during the team's 4-3 win over Waupaca on April 29. Ash singled, drove in a run and scored once during the team's 20-4 setback to Freedom on April 30.

Gillett/Suring softball, baseball teams fall to Laona/Wabeno

By MORGAN RODE
Sports Editor

The Gillett/Suring softball and baseball teams each suffered a nonconference loss to Laona/Wabeno April 30 at the Orby Jones Sports Complex in Gillett.

Both games ended in five innings after the visitors reached the 10-run rule.

Softball

Gillett/Suring had just three batters reach base during a 15-0 loss.

Carrie Griffin was hit by a pitch in the first inning with one out, Liz Soper opened the second inning with a single and Kelsey Smith singled with one down in the third for Gillett/Suring's lone baserunners. None of the runners moved past first, with nine strikeouts hurting the hosts.

Laona/Wabeno scored twice in the first inning after a couple of Gillett/Suring errors. The visitors added a run in the second before blowing the game open with a seven-run third.

An error and walk started the big frame, and then the visitors used aggressive baserunning to take extra bases and build up the lead.

Laona/Wabeno tacked on two runs in the fourth and three more runs in the fifth to put the game away.

Emily Umentum took the loss in the circle for Gillett/Suring.

Coach Mike Umentum was pleased with the team's energy at the start of the game, but saw it fall as the game started trending in the wrong direction.

"I just like to make sure everybody is on the same page and just try to keep the energy up, because when the energy is up, we do better," said Smith on how she tries to lead the team as a senior. "Just try to give pointers wherever I can help."

Baseball

Just up the hill, the Gillett/Suring baseball team suffered a 19-4 loss.

Both teams were able to put a bunch of runners on base during the contest, with Laona/Wabeno capitalizing more often then Gillett/Suring to come out with the win.

Laona/Wabeno scored at least one run in all five innings, including a three-run first, five-run third and eight-run fifth. Gillett/Suring's only crooked number came when the team scored twice in the second. The hosts stranded 13 runners on bases, including leaving the bases loaded three separate times.

After Laona/Wabeno scored three times in the first and once in the second, Carter Whisman came through with a two-run double to bring Gillett/Suring within two.

But by the next time the hosts scored in the fourth, the visitors had taken control of the game.

Taron Haak started the game on the hill and was dealt the loss for Gillett/Suring. Quinn Thomson and Ethan Lally also pitched in the contest.

Haak is the only player who had varsity experience coming into the spring season. "I just have to help them as much as I can and teach them as we go we will make mistakes, but hopefully we learn from them and improve."

2020 Annual Drinking Water Quality Report

Oconto Falls Municipal Utilities is pleased to present to you this year's Annual Water Quality Report. This report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water.

We want our valued customers to be informed about their water utility. If you have any questions about this report, or concerning your water utility, please contact Greg Kuhn at 920-846-4512, or feel free to attend a Water & Light Commission meeting, held at 6 p.m. the third Monday of each month in the City of Oconto Falls Municipal Building at 500 N. Chestnut Avenue.

WHERE DOES OUR WATER COME FROM?

The Oconto Falls Water Utility obtains groundwater from three wells. In 2020, the Oconto Falls Utility distributed 114.0 million gallons of water to 1178 water customers. The distribution system consists of: 28 miles of water main; 246 fire hydrants; and one 300,000 gallon, elevated storage tank.

In 2020, the Oconto Falls Water Utility replaced its SCADA system. This system controls the operations of the wells and monitors the water tower level.

The Oconto Falls Water Utility routinely monitors for constituents in your drinking water according to Federal and State regulations. The table shows the result of our monitoring for constituents that were detected for the period of January 1 – December 31, 2020.

ADDITIONAL HEALTH INFORMATION

While your drinking water meets USEPA's standard for arsenic, it does contain low levels of arsenic. USEPA's standard balances the current understanding of arsenic's possible health effects against the costs of removing arsenic from drinking water. USEPA continues to research the health effects of low levels of arsenic – a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

Lead: Infants and young children are typically more vulnerable to lead in drinking water than the general population. It is possible that lead levels at your home may be higher than at other homes in the community as a result of materials used in your home's plumbing. If you are concerned about elevated lead levels in your home's water, you may wish to have your water tested and flush your tap for 30 seconds to 2 minutes before using tap water. Additional information is available from the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

Microbiological Contaminants: We test for coliform bacteria in our well water and at 6 locations throughout the city bi-monthly. None of our distributions systems have tested positive for any type of coliform bacteria.

Radioactive Contaminants: Alpha Emitters – Certain minerals are radioactive and may emit a form of radiation known as alpha radiation. Some people who drink water containing alpha emitters in excess of the MCL over many years may have an increased risk of getting cancer.

WHAT DOES THIS MEAN?

We constantly monitor for various constituents in the water supply to meet all requirements. We're proud that your drinking water meets or exceeds all Federal and State requirements. We have learned through our monitoring and testing that some constituents have been detected. The EPA has determined that your water IS SAFE at these levels.

"All sources of drinking water are subject to potential contamination by constituents that are naturally occurring or are manmade. Those constituents can be microbes, organic or inorganic chemicals or radioactive materials." All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

MCL's are set at very stringent levels. To understand the possible health effects described for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL level for a lifetime to have a "one-in-a-million chance" of having the described health effect.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immune-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/Aids or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

Ways to Save Water!!!

Fix dripping faucets – Most houses have a dozen or more faucets, turnoff valves and toilets that need periodic maintenance or they will leak. If you're dripping 60 drops per minute, that's 192 gallons of water lost per month. Most hardware stores sell wind-up timers for water sprinklers. This may help prevent the accidental overnight lawn watering.

ABBREVIATIONS

In the Table, you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms, we've provided the following definitions:

AL - Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

MCL - Maximum Contaminant Level: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

MCLG - Maximum Contaminant Level Goal: The level of a contamination in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

MFL – Million fibers per liter.

MRDL – Maximum residual disinfectant level goal: The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

mrem/year – Millirems per year (a measure of radiation absorbed by the body).

NTU – Nephelometric Turbidity Units.

pCi/L - Picocuries per liter (a measure of the radioactivity in water).

ppm - Parts per million - or milligrams per liter (mg/l).

ppb - Parts per billion (ppb) or micrograms per liter.

ppt – Parts per trillion, or nanograms per liter

ppq – Parts per quadrillion, or picograms per liter.
